Dear Simon,

We were beyond pleased with Bill Blagg's recent performance of "The Science of Magic" at our venue! Bill has figured out the magic behind getting middle school students hooked on science. His performance was both entertaining and content rich. Bill was as engaging on stage as he was off stage, and he was truly a pleasure to work with.

We look forward to programming "The Science of Magic" again in the near future. The show was so well received by teachers and students alike that we are confident we will be able to bring Bill back for another sell out performance.

Sincerely,

Shannon Dozoryst
Education and Outreach Coordinator
