# ABOUT THE SHOW

Magic in Motion melds the fascination of magic with the wonders of physical science to create an unbelievable educational experience!

Students will learn first-hand how to create illusions using core scientific principles such as force, energy, friction, motion and more. They will apply these principles in a variety of magical experiments that will bend the laws of science and create the impossible! Science and magic will collide as students instantly become stronger than their teachers, stop moving objects with their minds and even make a teacher's cell phone invisibly travel through time! You have to see it to believe it!

Magic in Motion is a magic filled, educational experience that is designed to inspire students to investigate how physical science can create magic while also playing an important role in their daily lives!

## Quick Show Facts

- Best for Grades 2-7
- 60 minutes / 15 minute reset
- Professional study guide
- 90 min load in / 60 min load out
- 2 hands for in / show call / load out
- STEM based applications
