

OUTREACH

Customized workshops are available upon request. *Shadow Play* explores themes of friendship, difference and forgiveness. We feel it is important, timely, and vital for our company to share these themes with audiences across the country and internationally. Trusty Sidekick Theatre Company strives to advance the field of theater for young audiences by sharing both our finished works and devising methods. By touring the production, we hope to build relationships with theatre artists across the country, exchanging best practices and strengthening the TYA community.
